TECH STACK

Python | Typescript | C++ | Java

TensorFlow | NextJS | React | MongoDB | Express | NodeJS | Linux | SCSS | Figma

LEARNING

Lua | Rust

Linux | Machine Learning | Natural Language Processing

LANGUAGES

English: Proficient / C2
Czech: Native
Vietnamese: Native
French: Elementary / A2

PROUD OF

1st Math Olympiad
Regional round (last in this category) in 2015

1st TAPC
Competitive programming 2022

1st BAPC from UT
Competitive programming 2023

INTRO

I am a motivated and passionate Computer Scientist and Mathematician. I like structured methodologies but also love to adapt a more creative way to find solutions to problems. Between "do" and "don't," I always pick "do."

I am so excited to begin my journey to understand the thing that makes human such incredible beings, our brain. And to explore the potential of neuromorphic computing to advance artificial intelligence.

WORK EXPERIENCE

Founder, Teacher | Spark Environment

November 2019 – Current | Prague, Czech republic

- Founded the startup
- Hired talented lecturers

Software developer, Internship | Digitoo s.r.o

November 2023 – Current | Prague, Czech republic

- Developing application using NextJS framework
- Facilitating seamless data migration and proficiently navigating CMS structures to ensure optimal system performance

EDUCATION

Computer Science | University of Twente

September 2021 – June 2024 | Enschede, Netherlands

Applied Mathematics | University of Twente

September 2021 – June 2024 | Enschede, Netherlands
